## COMPANY PROFILE

## About

# AA TECHS

AA Technology Solutions is a UK based IT solution provider, with vast experience in providing customised technology solutions for small and medium scale organisations. The company was formed by a consortium of experts with a common passion for Information Technology to support businesses and deliver value add solutions. We address business objectives and challenges of organisations in both Europe and the Middle-East. AA Techs also has a team of offshore experts based in India working on various projects utilising diverse technologies. This effective offshore-onshore collaboration model makes AA Techs the ideal solution partner for our clients.

At AA Techs, we are continuously working with emerging technologies. We align our skills with the customer's requirements to achieve the expected outcome, and give our customers that competitive advantage.

At AA Techs we provide a comprehensive range of IT transformational solutions such as Application Development, Process Support, Infrastructure Support and Marketing Support. AA Techs also offers a range of technology products in Analytics which have been deployed in various industries. At AA Techs, our motto is always 'customer first'.

AA Techs
